**DETAILED ACTION**

1. Claims 75-169 are pending in this Application filed 02/16/01 and Second Preliminary Amendment filed 01/22/02.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 75-103 and 138-163, drawn to a negotiable instrument with an extended maturity date issued by a buyer and a capital pool to purchase an interest in the negotiable instrument, classified in class 705, subclass 35.
  - II. Claims 104-119, drawn to distribution of a payment to a seller, classified in class 705, subclass 38.
  - III. Claims 120-137, drawn to extending the payment term to a buyer, classified in class 705, subclass 37.
  - IV. Claims 164-169, drawn to paying a holder of the negotiable instrument the value of the negotiable instrument on the maturity date, classified in class 705, subclass 80.
3. Inventions Group I, Group II, Group III and Group IV are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because

Group I has a negotiable instrument with an extended maturity date issued by a buyer, Group II has distributing payment to the seller, and Group III has extending the payment term to a buyer. The subcombination Group IV has separate utility such as paying for the value given to a buyer by a seller.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I, III, and IV is not required for Group II, the search for Group III is not required for Groups I, II, and IV, the search for Group IV is not required for Groups I, II, and III, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
